Mutual Insurance Mechanism and the Pre-financing

Mutual Insurance Mechanism (MIM)

Replacing the Guarantee Fund in Horizon Europe

Contribution to the Mechanism:

but it can be more, or less.

- Actions require a 5% -8 %contribution
- From the first pre-financing
- Additional OPTION for programmes with MIM split contribution – contribution can be partially offset from the additional pre-financing.
- The contribution cannot exceed the amount of the initial pre-financing.
- The Mechanism may be extended to beneficiaries of any other directly managed Union programme.
- The Commission shall adopt modalities for participation of beneficiaries of other programmes.

Pre-financing payment

Model Grant Agreement

22.3 Amounts due

22.3.1 Prefinancing payments

The aim of the prefinancing is to provide the beneficiaries with a float.

It remains the property of the EU until the final payment.

For **initial prefinancings** (if any), the amount due, schedule and modalities are set out in the Data Sheet (see Point 4.2).

For **additional prefinancings** (if any), the amount due, schedule and modalities are also set out in the Data Sheet (see Point 4.2). However, if the statement on the use of the previous prefinancing payment shows that less than 70% was used, the amount set out in the Data Sheet will be reduced by the difference between the 70% threshold and the amount used.

The contribution to the Mutual Insurance Mechanism will be retained from the prefinancing payments (at the rate and in accordance with the modalities set out in the Data Sheet, see Point 4.2) and transferred to the Mechanism.

Prefinancing payments (or parts of them) may be offset (without the beneficiaries' consent) against amounts owed by a beneficiary to the granting authority — up to the amount due to that beneficiary.

Reporting and payments in Horizon Europe

HE Grant Agreement obligations

Reporting and payments

ARTICLE 21 — REPORTING

21.1 Continuous reporting

The beneficiaries must continuously report on the progress of the action (e.g. **deliverables, milestones, outputs/outcomes, critical risks, indicators**, etc; if any), in the Portal Continuous Reporting tool and in accordance with the timing and conditions it sets out (as agreed with the granting authority).

Standardised deliverables (e.g. progress reports not linked to payments, reports on cumulative expenditure, special reports, etc; if any) must be submitted using the templates published on the Portal.

21.2 Periodic reporting: Technical reports and financial statements

In addition, the beneficiaries must provide reports to request payments, in accordance with the schedule and modalities set out in the Data Sheet (see Point 4.2):

- for additional prefinancings (if any): an **additional prefinancing report**
- for interim payments (if any) and the final payment: a **periodic report**.

ARTICLE 22 — PAYMENTS AND RECOVERIES — CALCULATION OF AMOUNTS DUE

22.1 Payments and payment arrangements

Payments will be made in accordance with the schedule and modalities set out in the Data Sheet (see Point 4.2).

They will be made in euro to the bank account indicated by the coordinator (see Data Sheet, Point 4.2) and must be distributed without unjustified delay (restrictions may apply to distribution of the initial prefinancing payment; see Data Sheet, Point 4.2).

Payments to this bank account will discharge the granting authority from its payment obligation.

Monitoring Project Implementation

Scope and Timing

- The Commission/Agency must monitor the activities of the projects in order to assess and verify:
 - that the beneficiaries implement the project as described in Annex 1 of the Grant Agreement (GA) (Description of the action – DoA).
 - the eligibility of the costs claimed.
- In order for the Commission/Agency to verify that the project is implemented properly, the beneficiaries must submit any information requested, and in particular **the deliverables and reports detailed in the GA.**
- Monitoring project implementation is a **continuous task** that can take place at any moment during the active period of the project (and beyond).
- but there are key contractual tasks that make project monitoring most relevant at certain periods in project's life, in particular **after each reporting period** at the time of **payments**.

**Project Officers monitor projects.
External experts may assist.**

**Review meetings may be
organised regularly, normally
after each reporting period.
External experts may assist.**

Project reporting

Schedule

The beneficiaries must provide reports to request payments, in accordance with the schedule and modalities set out in the **Data Sheet**.

4.2 Periodic reporting and payments

Reporting and payment schedule (art 21, 22):

Reporting					Payments	
Reporting periods			Type	Deadline	Type	Deadline (time to pay)
RP No	Month from	Month to				
					Initial prefinancing	30 days from entry into force/10 days before starting date – whichever is the latest
1	1	12	Periodic report	60 days after end of reporting period	Interim payment	90 days from receiving periodic report
2	13	24	Periodic report	60 days after end of reporting period	Final payment	90 days from receiving periodic report

Reporting schedule

Continuous reporting

Continuous reporting module

- Project summary
- Submission of deliverables
- Report progress in achieving milestones
- Follow-up critical risks
- Reporting on horizontal issues
 - Open access tables (publications, datasets, other results)
 - Dissemination, exploitation and communication activities
 - Policy questionnaires

Continuous Reporting is activated at the project start

The screenshot displays the 'RESEARCH & INNOVATION Grant Management Services' interface. The top navigation bar includes the European Commission logo and a 'Help' dropdown. The main content area is divided into a left sidebar and a main panel. The sidebar, titled 'MY PROJECT', contains project details such as 'Call:', 'Type of Action:', 'Acronym:', 'Current Phase: Grant Management', 'Number:', 'Duration: 42 months', 'GA based on the: HE MGA', 'Start Date: 01 Jun 2022', 'Estimated Project Cost:', 'Requested EU Contribution:', and 'Contact:'. It also features buttons for 'Latest Legal Data', 'Active Processes', 'Document Library', 'Communication Centre', and 'Archived Processes'. The main panel shows a 'Continuous Reporting' section with a progress bar indicating the start date '01 Jun 2022' and a 'Started' status. Below this, there are sections for 'Continuous reporting data', 'Process documents', 'Process communications', and 'Process history'. A 'Launch new interaction with the EU' button is visible in the top right corner. At the bottom, there are links for 'H2020 ONLINE MANUAL' and 'ONLINE MANUAL'.

Project Summary for publication

SAVE

i This section consists of several sub-sections that will be published through CORDIS and possibly other communication channels. Your text should be easy to read, that is, written in an understandable and accessible way for a broader public. Its purpose should aim to promote the dissemination and support the exploitation of EU funded results. Altogether, your text should not exceed 7480 characters. You should refer only to publicly available information and must not include any confidential or personal data (e.g. names and addresses).

The project summary (for publication) must be drafted as a "stand-alone" text. No references should be made to other parts of the report.

You may also wish to provide diagrams or photographs illustrating and promoting the work of your project (only as images)[1].

(1) Any rights of third parties must be cleared in advance in accordance with the grant agreement.

- ▶ Context and overall objectives
- ▶ Work performed and main achievements
- ▶ Results beyond the state of the arts
- ▶ Policy relevant evidence of your project

Citizen Engagement

Regarding co-design and co-creation through the engagement of citizens, and/or end-user entities, how have citizens and end-user entities contributed to the co-creation of R&I content so far?

	Citizen	End-user entities
Co-creating R&I visions, agendas, policies or frameworks	<input type="checkbox"/>	<input type="checkbox"/>
Co-creating R&I action plans or technology roadmaps	<input type="checkbox"/>	<input type="checkbox"/>
Collecting data for the project	<input type="checkbox"/>	<input type="checkbox"/>
Analysing data for the project	<input type="checkbox"/>	<input type="checkbox"/>
Providing resources, e.g. computational, space/locations, practical support	<input type="checkbox"/>	<input type="checkbox"/>
Monitoring and/or evaluating R&I results	<input type="checkbox"/>	<input type="checkbox"/>
Testing & experimenting with innovative R&I solutions	<input type="checkbox"/>	<input type="checkbox"/>
Contributing to scientific publications or patent applications	<input type="checkbox"/>	<input type="checkbox"/>
Debating R&I findings and implications for them	<input type="checkbox"/>	<input type="checkbox"/>
Other (please specify) <input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
Not applicable	<input type="checkbox"/>	<input type="checkbox"/>

What mechanisms for citizen and/or end-user entity engagement have you set up and plan to maintain beyond the end of your project, or are planning to set up and maintain beyond the end of your project (per beneficiary)?

Select Beneficiary

- Department, centre, lab, network, testbeds or other structure or space set up, internally or externally, to support citizen/end-user engagement
- Institutional websites, web-pages or portals set up to support citizen/end-user engagement (excluding project website)
- Staff appointed with responsibility to initiate, monitor, evaluate or advise on citizen/end-user engagement
- Staff appointed with responsibility for training, mutual learning and sharing of tools and good practice on citizen/end-user engagement
- Rules, standards, guidelines or other frameworks established to ensure that citizen/end-user engagement is taken into account in institutional R&I processes
- Systematic or regular dialogues, meetings, workshops or other events set up for citizen/end-user engagement (excl.one-off events)
- Other
- None

Overall, how many individual citizens have been involved in co-creating R&I content for all activities listed? (please provide your best estimate, which should be traceable in one or more deliverables)

Impact Continuation SAVE

Key factors fostering and impeding the impact of the progress (optional question)

Key factors fostering progress to impact

To what extent are the key factors identified below fostering the progress of the project so far? Please tick if highly relevant.

- Scientific excellence of the consortium
- Geographic breath of the consortium
- Previous collaborations between partners
- Interdisciplinarity and cross-sectoral approach of project
- Integration of gender dimension in research content
- Involvement of social sciences and humanities in the project
- Strategic impact orientation of the project aligned to emerging needs
- Involvement of users from project design
- Management of intellectual & industrial property rights
- Collaboration with wider ecosystem beyond the project (e.g. financial intermediaries, public authorities, standardisation, regulatory bodies)
- Further funding secured to exploit project's results
- Validation of prototype by potential buyer /end-user
- Knowledge Triangle Integration
- Other (specify)

Highlight any good practice learning from the project for improved implementation that might be transferable to other projects:

Key factors impeding progress to impact

To what extent are the key factors identified below impeding to progress as initially planned. Please tick if highly relevant.

- Difficulties in project implementation and management, including access to human resources, securing additional funding, IPR management, cooperation between partners
- Difficulties in engaging with wider environment, including potential end-users, citizen and policy makers
- Competitive pressures are evolving differently than planned
- Scientific and technological contexts are evolving differently than planned
- Socio-economic and pol
- Other factors external to the project impede to progress as expected

Explain key difficulties faced for the implementation of the project and the problem-solving practices adopted or planned:

Results

SAVE

There is no result for this project yet

Please provide details about project results. Please focus on the content of the results, for example discoveries and theories, products, services, methods etc. Publications, intellectual property rights, datasets, software, algorithms, protocols etc. will be linked to these results later in separate tables. It will also be possible to add these to the project as a whole.

Examples:

1. The project developed a new medical device, which is described in two publications and later patented. Instructions: List the medical device here (as 'PROD: Product') and link publications to this product in dedicated sections. When you have information about the patent application, link it in a dedicated section.
2. The project developed a new scientific theory which is described in several publications. Instructions: List the name and potential of the theory here (as 'SCI: Scientific discovery, model, theory') and add relevant publications later in dedicated sections.
3. The project develops a high potential industrial process and is currently at the stage of prototyping. Instructions: List the industrial process here (as 'PROC: Industrial process') and indicate the prototyping stage under 'Steps undertaken towards exploitation'. If there is a registered prototype, link the registered prototype in a dedicated section.
4. The project mainly focused on activities such as conferences, staff exchanges, or on investments in infrastructures. Instructions: List these as results and their potential here.

Results

No results yet

[Add Result](#)

Remarks

Please do not forget that you are obliged under the Grant Agreement to use the Horizon Results Platform to find interested parties to exploit your KERs if you have not been able to exploit them within one year after the end of the project (unless the obligation has been waived by the granting authority). Exploitation efforts must be continued up to four 4 years after the end of the project, even when the Horizon Results platform is used.

Validate

Results (2/3)

The screenshot shows the 'Add Result' dialog box in the Horizon Results Platform. The dialog box is titled 'Add Result' and contains the following fields and options:

- Name:** A text input field.
- Result type:** A dropdown menu.
- Key results (KER) (does result have a high potential?):** A section with five checkboxes:
 - High scientific potential
 - High societal potential (other than climate or environmental)
 - High societal potential
 - High technologic, business or economic potential
 - High policy or regulatory potential
 - N/A

At the bottom of the dialog box, there are 'Save' and 'Cancel' buttons.

The background interface shows the 'Grant Management' header with navigation tabs for 'Project Summary', 'Researchers involved in the project', 'Deliverables', and 'Milestones'. The main content area is titled 'Results' and contains the following text:

Please do not forget that you are obliged under the Grant Agreement to use the Horizon Results Platform to find interested parties to exploit your KERs if you have not been able to exploit them within one year after the end of the project (unless the obligation has been waived by the granting authority). Exploitation efforts must be continued up to four 4 years after the end of the project, even when the Horizon Results platform is used.

Specific elements requested in the table below are aimed at fulfilling Art. 2(21) and 38 of the Horizon Europe Regulation ('Beneficiaries shall own the results they generate' during a project etc.). Please recall that it is mandatory to submit a 'results ownership list' with the last periodic report (see Annex 5 of Model Grant Agreement). By duly filling in this table you fulfil this obligation. The submission of your last periodic report will be blocked if the 'results ownership list' is not filled in.

Results Ownership List

Indicate the owner(s) of the results.

Note: __

This is the 'results ownership list' required under the Grant Agreement. __

The submission of your last Periodic Report will be blocked if this table is not filled in.

[+ Add Result Ownership](#)

Other Results (1/2)

The screenshot displays a web application interface for 'Grant Management'. The main content area is titled 'Other Results' and shows a message: 'This project does not currently have any other results' and 'Project Other Results (0 results)'. A dialog box titled 'Add Other Result' is open in the foreground, containing the following fields:

- Type of result (dropdown menu)
- Description (text input)
- If the result is needed to validate the conclusions of a publication, briefly describe the provisions whereby you intend to make your output available, either in digital or physical form (text input)
- Type of Persistent Identifier, PID (dropdown menu)
- Insert PID reference (if available) (text input)
- Insert PID reference of the publication (text input)
- URL to repository landing page for the result service/webpage hosting the result (if available) (text input with a small 'i' icon)
- What license is the result licensed under? (dropdown menu)

At the bottom of the dialog box are 'Save' and 'Cancel' buttons. The background interface includes a navigation bar with 'Grant Management' and several tabs: 'Project Summary', 'Researchers involved in the project', 'Deliverables', and 'Milestones'. A 'SAVE' button is visible in the top right corner of the background interface.

Open Datasets suggested by OpenAIRE (100 datasets pending)

No. ▲	DOI	Title/Identifier	Accessible	WebLink	Actions
1		(Table 1) Ratio of hydroxy-GDGT vs. the total core GDGT was calculated based on the detection of hydroxy-GDGT	No		✕
2		Pore water chemistry of sediment core GeoB15101-7: carbon isotopic composition of dissolved inorganic carbon	No		✕
3		Concentration and isotopic composition of methane in sediment core GeoB17307-8	No		✕
4		Microbial cell counts of sediment cores from METEOR expedition M84/1	No		✕
5		Microbial cell counts of sediment core WOR-3b from White Oak River estuary	No		✕
6		Porosity in sediment core GeoB17306-2	No		✕
7		Concentration of methane in sediment core GeoB17305-5	No		✕
8		Porosity in sediment core GeoB17305-5	No		✕
9		Concentration of methane in sediment core GeoB17308-1	No		✕
10		TOC content, stable carbon isotope signal, and C/N-ratios of sediment core GeoB17308-4	No		✕

A black clothespin is attached to a thin, dark string that runs diagonally across the frame. The clothespin is holding a small, white rectangular card. The card has the word "QUESTIONS?" written on it in a bold, orange, sans-serif font. The background is a plain, light-colored wall.

QUESTIONS?

Thank
you

for your attention
