# Call analysis

See the word document

# Consortium

# Looking to join a consortium

- Set your **internal strategy** and **priorities**
- Do your homework: **call analysis** + **specific role/contribution**
- Conduct targeted **promotion** and **networking** at events and social networks
- **Background** **check** and **partner/coordinator mapping** (CORDIS, EU networks, Google, etc.)
- Be proactive: sketch ideas, demonstrate your potential **added value** to **proposal writing**
- Join **European networks** and **umbrella organisations**
- Think **long-term**

# Internal preparation

- System for screening of **work programmes / calls for proposals** (topics, key words)
- **Database** of HE calls and topics (e.g. Excel)
- Brainstorming **workshops** and **interdepartmental** cooperation
- Partner profile(s): **research capacity, resources (incl. infrastructure), tools, results, network**
- Admin and financial **templates**

# Proactive participation at EU events

- EU conferences, networking events, brokerage events (e.g. European Research & Innovation Days)
- EU Info Days / Sessions
- NCP networks, events
- Follow the relevant social media accounts (especially **Twitter**)

💡 Attend these events prepared: have an objective and description of your **project ideas** / **partner proposition** that you could **pitch** to others (e.g. PPT, profile/page, video, direct dialogue).

# Case study: Partnership offer

## PROJECT COOPERATION

### Socio-economic empowerment of the users of the sea

Interested in the HORIZON-CL6-2021-COMMUNITIES-01-04 call.

We could lead two Work Packages for a proposal focused on this call.

One WP focused on skills and training:

- \* Improved skills in ocean literacy education and awareness raising, social sciences, green skills and digital transformation to process and integrate large network input of gradually more 'Green and Blue Literate' citizens that are more engaged to take direct and sustainable action.

One WP focused on the dissemination and communication of the project:

- \* Developing the visual identity of the project, producing all dissemination materials (videos, infographics, visuals, story maps, printed items, etc), carrying out the communication of the project (publishing in different outlets, translating science knowledge into general public language, managing social media channels, presenting at conferences when needed, etc).

And we would be interested in collaborating in a WP focused on citizen science:

- \* Curiosity-driven citizen science initiatives and outcomes connected to specific societal and blue bioeconomy-related socio-economic challenges on coastal climate adaptation and mitigation, coastal pollution, coastal biodiversity, circularity and sustainability or other aspects of coastal (eco)tourism and cultural events etc

Source: Geonardo at CL6 Brokerage Day: <https://he-cluster6.b2match.io/participants/234>

# Case study: Expertise offer

## PROJECT COOPERATION

### Development of e-training sites, mobile applications, websites and other digital tools

At Geonardo we have a team dedicated to developing web-based decision support tools for complex decision making processes such as planning energy efficiency interventions in districts, or a toolbox for better marine litter management in three European sea basins.

We have developed several content-rich, engaging, and highly visual e-learning sites to increase skills in people, and mobile applications that adapt to the users' needs.

If you want to give a colorful, interactive, and resourceful boost to your proposal, don't hesitate in contacting us!

### Type

Partner looking for consortium

# Mapping Relevant Organisations/Coordinators

- Check [CORDIS](#) for past and ongoing **projects and their coordinators/partners**
- Identify relevant **reports, publications, policy papers** and their **authors/contributors** → Google: keywords + site:europa.eu
- Identify the relevant [European Partnerships, Missions, KICs](#), other initiatives, etc. and their **members**
- Identify the **relevant networks, umbrella organisations** at European level → Google: keywords + Europe

# Example: Partnering under CL1

- Researcher/Practitioner from Norway working on **workplace mental health**.
- Interested in the **upcoming Horizon Europe CL1 topic HORIZON-HLTH-2023-ENVHLTH-02-02: Evidence-based interventions for promotion of mental and physical health in changing working environments (post-pandemic workplaces)**
- Wants to **join a consortium**, and in general **build up connections/networks** for new projects and collaborations.

## CORDIS is the primary source of results from EU-funded projects since 1990

PROJECT

## MENTUPP Mental Health Promotion and Intervention in Occupational Settings: MENTUPP

ID: 848137

From: 1 January 2020 to: 31 December 2023

Depression and anxiety are the most prevalent mental health difficulties in the workplace in the EU, causing immense suffering and costing the global economy €1 trillion each year in lost productivity. Certain sectors, in particular construction, health and ICT, have an...

Coordinated in: Ireland

HORIZON 2020

# Mental Health Promotion and Intervention in Occupational Settings: MENTUPP

Fact Sheet Reporting Results

## Project description

DE EN ES FR IT PL

### Healthy workplaces for small businesses

Employers across Europe are setting up activities to promote mental health and prevent mental illness, whose incidence rates have increased during the past decade. The ensuing high cost of sick leave and short-term absenteeism and the growing recognition of the relationship between human capital and resources and business outcomes have made this a priority. The EU-funded MINDUP project will develop a comprehensive, multilevel intervention targeting clinical (depression and anxiety disorders) and non-clinical mental health issues (burnout, stress, depressive symptoms). Its aim is to improve mental health and wellbeing in the workplace and to reduce depression and suicidal behaviour. The project will specifically target small workplaces as SMEs comprise 90 % of all EU businesses but have a limited capacity to support their employees' wellbeing and mental health.

## European Partnerships in health

Details of European Partnerships under Horizon Europe. Partnership proposals, contact details, details of partners.

### Partnerships in Horizon Europe

The aim of European Partnerships with EU and associated countries, the private sector, foundations and other stakeholders is to deliver on global challenges and modernise industry.

The initial list of candidate European Partnerships in Horizon Europe is found in Annex 7 of the [Orientations towards the first Strategic Plan for Horizon Europe](#) EN | ....

The following are the partnerships in the area of health.

### Details of partnerships

#### European Partnership for Global Health (EDCTP 3)

The partnership aims to deliver new solutions reducing the burden of infectious diseases in sub-Saharan Africa, and strengthen research capacities for preparedness and response against reemerging infectious diseases in sub-Saharan Africa and globally.

Aims by 2030

- license at least 2 new health technologies tackling infectious diseases
- have supported at least 100 research institutes in 30 countries for effective and rapid research response to develop diagnostics, treatments and vaccines against reemerging

# Partners

IHI is a public-private partnership (PPP) between the European Union (represented by the European Commission) and Europe's health industries, namely the pharmaceutical, medical technology, biotechnology, digital health and vaccine industries. IHI's industry partners are the trade associations COCIR, EFPIA (including Vaccines Europe), EuropaBio, and MedTech Europe.

## European Commission

The European Commission's Directorate General for Research and Innovation is responsible for the EU's research, science and innovation policy. It aims to develop and implement R&I policies in order to improve Europe's competitiveness, boost its growth, create jobs, and tackle future societal challenges. The Commission monitors and contributes to the realisation of the European Research Area (ERA) and funds research in the EU and beyond through Horizon Europe, the EU's key funding programme for research and innovation. Horizon Europe supports European Partnerships in which the EU, national authorities and the private sector jointly commit to support the development and implementation of research project activities.

# Abstract

# Putting together a proposal abstract

**Basis for the full proposal and your key tool for consortium building/partner search**

- Similar to a movie trailer
- Background – objectives – activities – results
- Utilise actively the Topic text
- Avoid proprietary or confidential information
- 1-3-page document, contact details, PDF

# This abstract might look something like this

- Background
- Objectives
- Key activities and results
- Key expected impacts
- Contacts

Other things you could mention in this abstract:

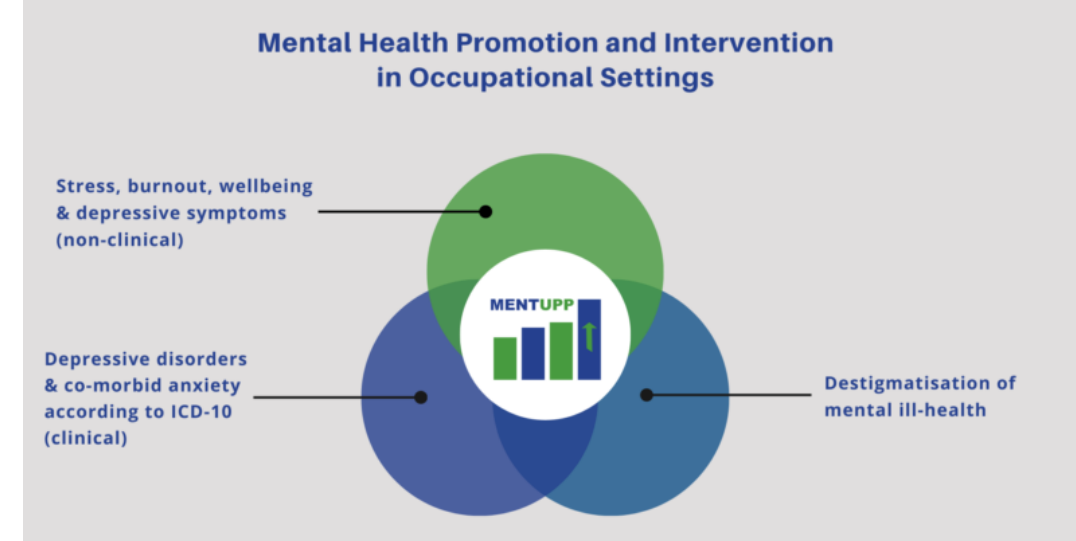

- Potential role of the organization you're approaching
- Timeline (submission deadline, expected evaluation date, expected start of the project, duration of the project)

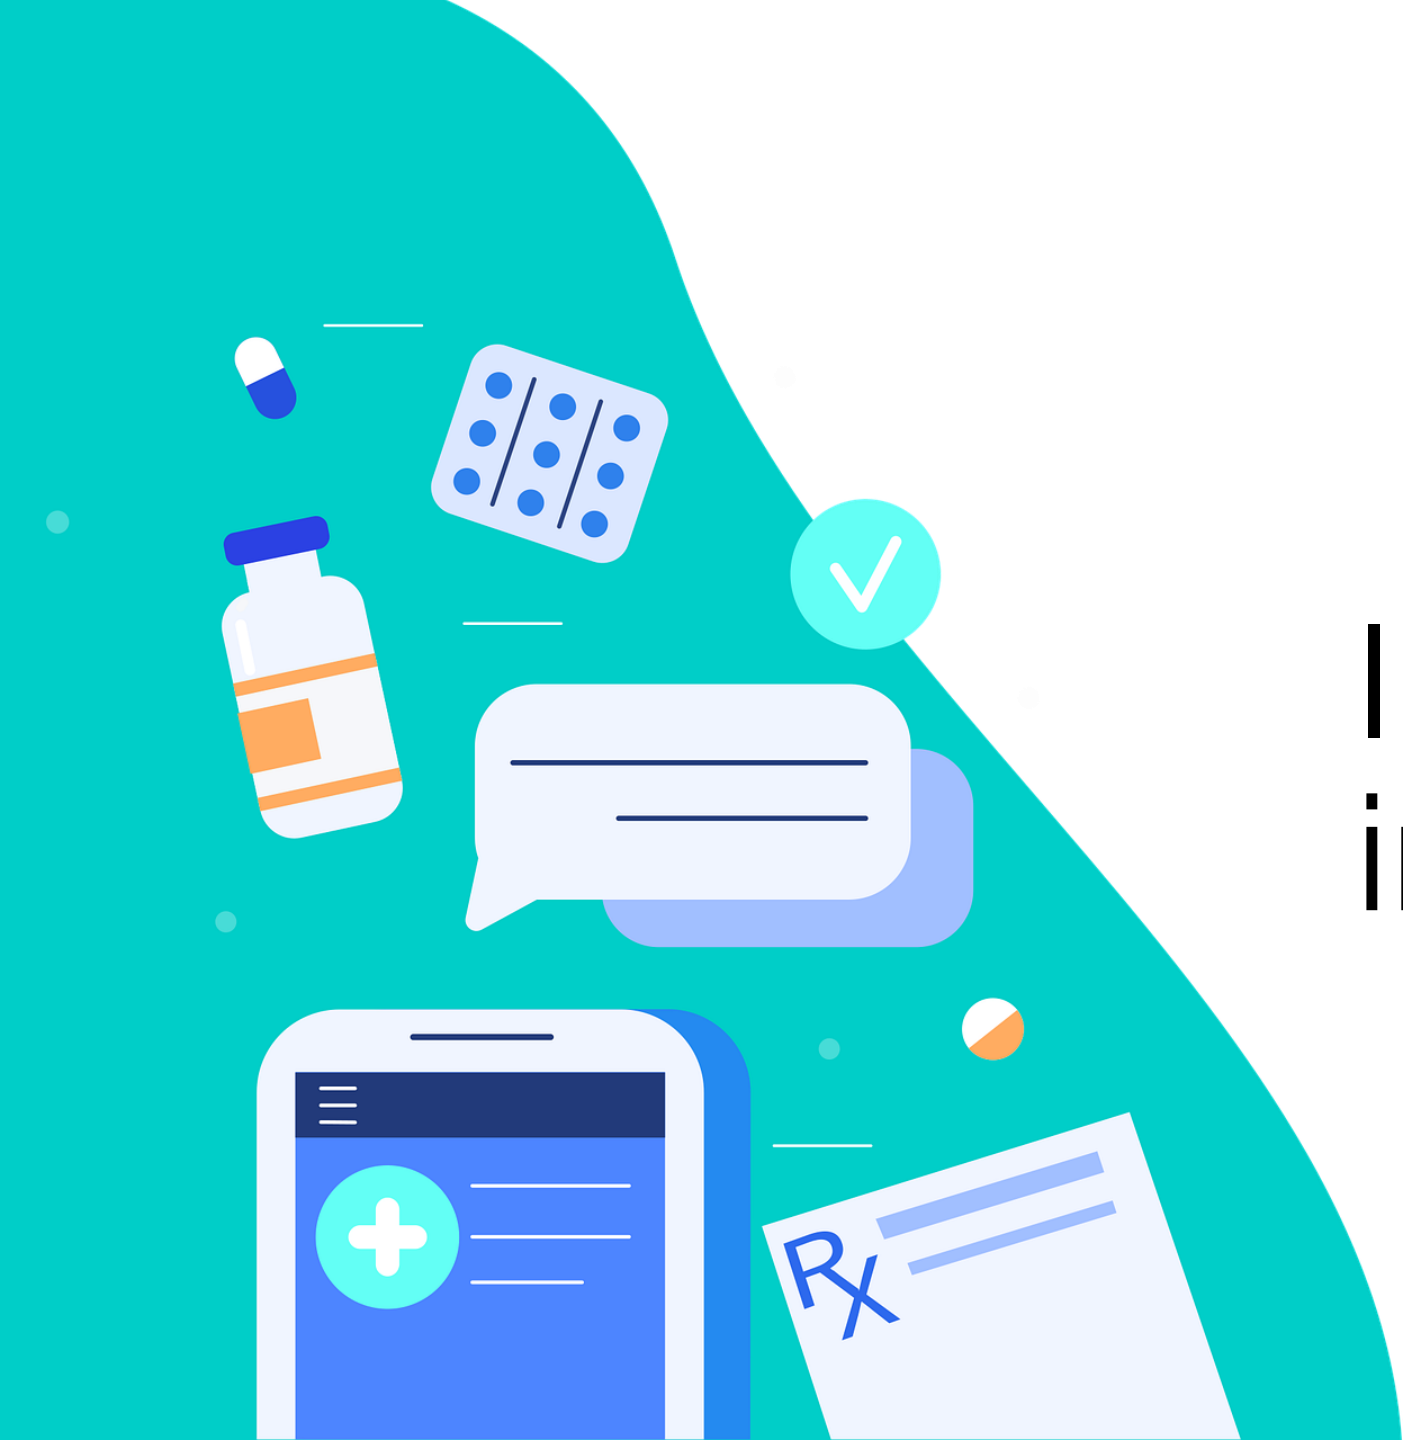

# Concept and Methodology

# Defining the concept and methodology

- Collaborative work on **defining and introducing the concept** (including visually)
- Input from WP leaders and other specialist partners to the **sub-sections** of the concept and methodology
- Input from all partners on **past and ongoing projects**
- Sex and **gender** aspects by a specialist partner

# Impact indicators

# Indicators

## Key Impact Pathways

- **World-class science; long-term:** Number and share of peer-reviewed publications resulting from the Projects funded by the programme that are core contributors to scientific fields
- **Skills; short-term:** Number of researchers involved in upskilling activities (training, mentoring/coaching, mobility and access to R&I infrastructures) activities in projects funded by the Programme.
- **Knowledge diffusion; medium-term:** Share of open access research outputs resulting from the Programme actively used/cited.
- [IHI JU Work Programme \(WP\)](#)

Measures to  
maximise  
impact

# Describing the dissemination, communication and exploitation strategy and measures

- Defining together all the users and uses of the results
- Presenting the individual exploitation plans
- Defining the dissemination and communication targets and KPIs
- Demonstrating the consortium's outreach potential
- Identifying IP issues

Partner	Background	Foreground	Results of interest	Exploitation route
XY	What is the partner bringing to the project?	Which results is the partner contributing to develop?	Which results is the partner interested in?	What is the partner planning to do with the results?
EXAMPLES	<p><u>e.g.</u>            brining in data            earlier training methods for manufacturing SMEs            advisory services and expertise on advance manufacturing network            data on manufacturing SMEs            ADMA experience, etc.</p>	<p><u>(Alone or with others jointly)</u>            I will develop the learning framework            I will develop the toolbox            I will build up the new learning network, being a member</p>	<p><u>Interested in</u>            Self-learning frameworks and toolbox            regional/national/EU level SME data            Advanced manufacturing tools, methods, technology information            Services on FoF to SMEs            Training services/method/ to SMEs            Coaching network</p>	<p><u>Internal use:</u>            e.g. we would like to use the benchmarking and advisory services to improve our own company. We would like to get access free of charge to all results after the end of the project.            e.g. we are an association and want to offer the tools and services, xChange to our members on beneficial terms</p> <p><u>External use:</u>            e.g. we would like to use the training material and framework and offer training courses within our business line            e.g. we want to set-up a joint service with a DiH/EEN and offer the toolbox together in partnership            e.g. we would like to continue working with the FoF coaches and support our local, regional SMEs further</p> <p><u>Financial sustainability</u> - we will finance our activities from e.g.            European Social Funds            funds for European Digital Innovation Hubs            EEN funding            Own sources            Market service where SMEs will pay to us</p>

Partner	Background	Foreground	Results of interest	Exploitation route
(all or most)	What is the partner bringing to the project?	Which results is the partner contributing to develop?	Which results is the partner interested in?	What is the partner planning to do with the results?

- Intellectual Property Rights (protection)**
- Patent (technical invention)
  - Copyright (Software, written work, engineering drawing, etc.)
  - Design rights (functional or aesthetic)
  - Database rights (organising and querying and retrieving data)
  - Trade mark
  - Utility model
  - Trade secret
  - Plant varieties
  - Etc.

# Work plan and resources

# Planning resources and budget

- Estimating the **efforts** and identifying the **other resources** required (travel, equipment, consumables, etc.)
  - Collecting **person-month rates**
  - Defining the number, destination and scope of the **travels**
- Drafting and finalizing the **budget**
