Chapter One

Third Parties in H2020

Third party assistance

More than „just” subcontracting

Third parties can:

- **sell you** goods/services
Other costs or subcontracting
- **provide access** to their resources
Personnel cost or other costs
- **carry out** part of the work
Other cost or subcontracting
- **be linked** to the Beneficiary
Full cost report
- **receive financial support**
Sub-granting/cascade funding

Direct Costs

Third Party Assistance in H2020

Why is it called Third Party?

It's neither the EC, nor any of the Beneficiaries but a third party to the Grant Agreement

There are 4+2 types of third-party assistance:

- **Purchase of goods, works or services (Article 10)**
- In-kind contribution provided by third parties against payment (Article 11)
- In-kind contribution provided by third parties free of charge (Article 12)

Third party **makes its resources** available to the Beneficiary

- Implementation of actions/tasks by subcontractors (Article 13)
- Implementation of actions/tasks by linked third parties (Article 14)

Third party **provides a service** to the Beneficiary

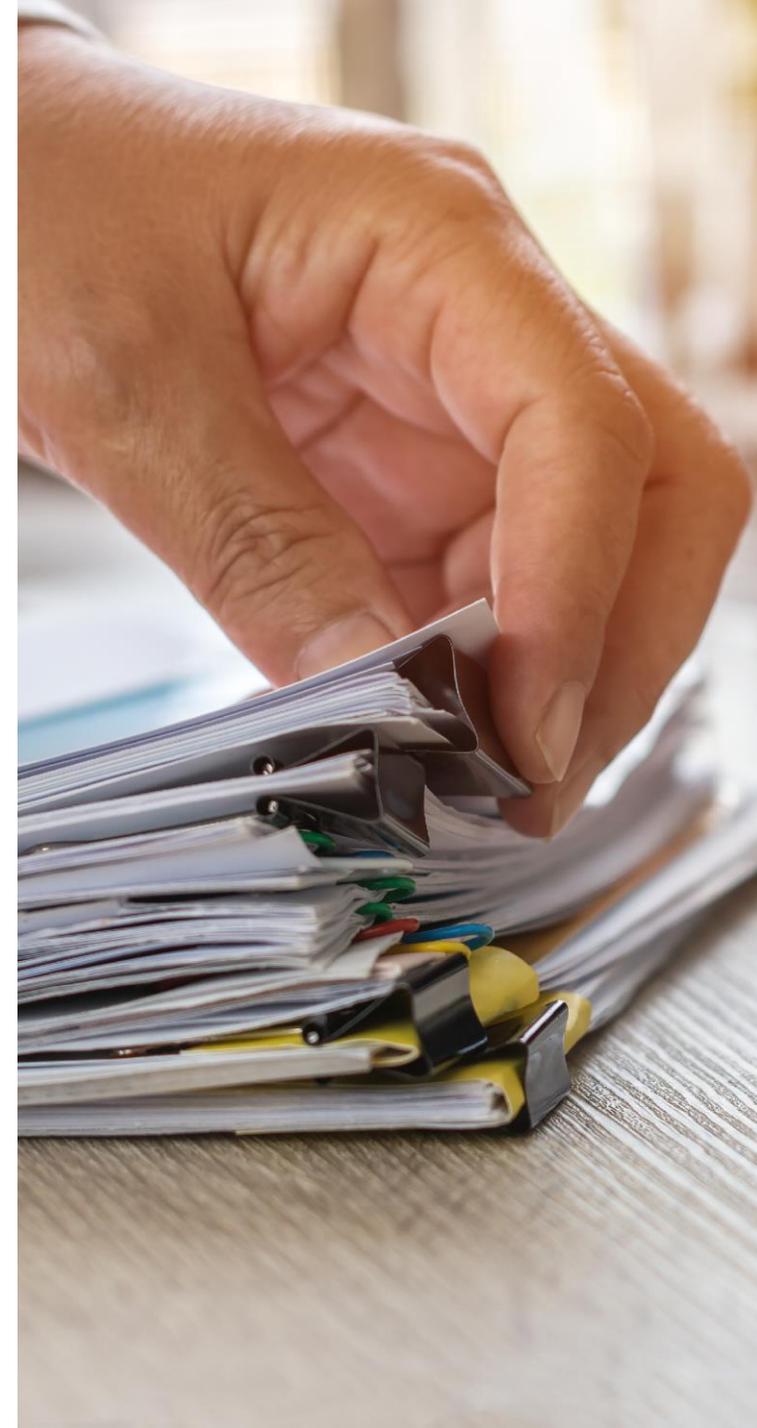

- **Financial support to third parties (Article 15)**

Third party involvement

What are the preconditions?

- Any third-party assistance **must be foreseen in the proposal**. Your last resort is during Grant Agreement Preparation (**GAP**) so it can be inserted in the Description of Action (**DoA**)
- It must be declared as **actual costs**. **No unit cost** is accepted here.
- The tasks that are subcontracted should be described in DoA. The subcontractor itself does not have to be identified, except when using resources of linked third parties

How to select any Third Party?

Award criteria

Third parties are awarded according to the following principles:

- best value for money
- transparency
- equal treatment
- and/or public procurement procedure:
 - (public) procurement in case the Beneficiary is obliged to do so based on their usual protocol, or
 - at least 3 offers for 3 independent suppliers

Third Parties: Article 13

Outsourced activities/tasks implemented by subcontractors

Only for limited parts of the project!

- The contract is based on business conditions, subcontractors are not directly supervised by the beneficiary, no access to IPR
- Subcontracting has to be mentioned, estimated and justified already in **DoA** (Annex 1: use of resources). If not, the cost can be rejected.
- Only from a third party: Invoicing between Beneficiaries **is not eligible!**
- **The costs** - the price of the service/s provided - **is paid and reported by the Beneficiary**
- Subcontractors must be bound by certain requirements of the EC (e.g. subcontractor may also be audited!)
- Not included for indirect cost calculation

Third Parties: Article 14 (1)

Outsourced activities/tasks implemented by linked third parties

WHO IS CONSIDERED LINKED?

Entities with legal link to the Beneficiary

- Under direct or indirect control of the Beneficiary
- Under the same direct or indirect control as the Beneficiary
- Directly or indirectly controls the Beneficiary
- Associations, foundations with members
- EEIG/JRUs

So what's the difference between Article 13 and 14?

Third Parties: Article 14 (2)

Outsourced activities/tasks implemented by linked third parties

HOW TO USE IT?

- The Linked Third Party **must be named and specified** in the GA
- Certain actions/tasks are implemented by the Linked third party
- The Linked third party does not invoice the Beneficiary!
- The Linked third party declares the costs of its work on its own Form C – same rules applies as for the Beneficiary
- The Beneficiary submits the Form C of its Linked Third Party
- The EC reimburses the Linked Third Party via the Beneficiary
- The Linked Third Party may also be audited!

So what's the difference between Article 13 and 14?

Changes in TPs in Horizon Europe

1. Third party makes its resources available to the Beneficiary against payment (H2020 Art. 11)

No special article - simply charge as your own personnel costs or other costs (equipment, other goods and services)

2. Third party makes its resources available to the Beneficiary free of charge (H2020 Art. 12)

Article 9.2 in HE – no particular changes, COST-only!

3. Subcontracting (H2020 Art. 13) →

Article 9.3 in HE – no change

4. Linked third parties (H2020 Art. 14) →

Affiliated entity in HE (Art. 8) – no change

Travel costs

- Actual travels costs, in accordance with the Beneficiary's account principles and travel policy - **you must have a travel policy!**
 - Business or Economy?
 - Per-diem or actual cost?
- The travel must be linked to the action, reported in the periodic report – **have a mission report form** with a written abstract what and why happened!
- No distinction between travelling in or outside of Europe!
- Travel costs are primarily eligible for the personnel working on the project
 - External experts? Invited lecturers?
- Proportionate travel costs in case of multiple purposes (*e.g. between projects, or between professional and private reasons*)
- Make sure **your travels are in line with your timesheets!**

Equipment and other assets

What is eligible?

- **Depreciation cost** for equipment, infrastructure or other assets (new or second hand) recorded in the Beneficiary's P&L can be reported.
- **Cost of installation**, site preparations, delivery etc.
- **Cost of renting or leasing** equipment, infrastructure or other assets (including related duties, taxes and non-deductible VAT) can be reported, if they do not exceed the depreciation costs of a similar asset and do not include any financing fees.
- The only portion of the cost related to an action can be reported i.e. costs which corresponds to the duration of the activity and rate of actual use for the purpose of the activity (**usage-rate records!**).

When it is eligible?

- Foreseen and needed to carry out the activity
- In accordance with:
 - the Beneficiary's accounting practice,
 - national/ local tax and accounting rules
 - **International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS)**

What are the special cases?

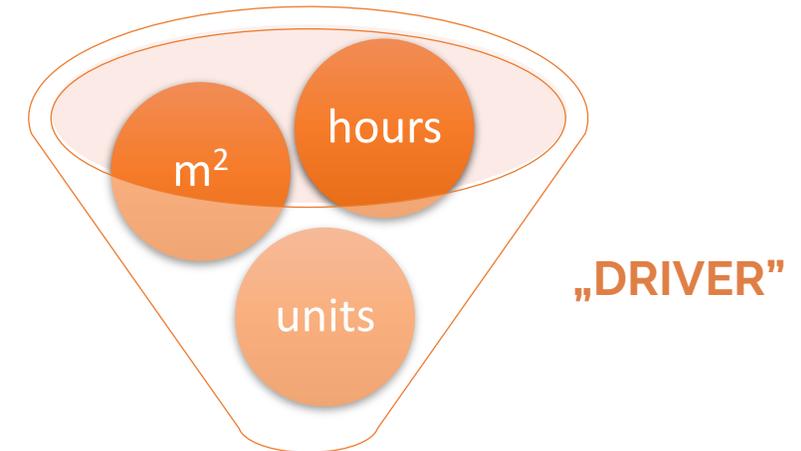

- Financing costs related to leasing contracts
- Buy-out costs related to leasing contracts
- Prototypes/Pilot plans?
- Full cost option in HE
- Full capitalised cost?
- Equipment bought before the project?

Internally invoiced goods or services

Based on unit-cost calculation (H2020)

- **What is this for?**
 - Self produced consumables or goods
 - Use of internal facilities or specialized premises
- **What's not?**
 - Cleaning, general accounting, HR/PR, admin, etc.
 - Costs that are already charged as direct costs (e.g., personnel?)
- Based on actual costs (!) only, excluding any internal overheads, profit or rates – it's a case-by-case calculation!
- Beneficiary has to ensure that the justification and/or calculation is available to prove that **"no-profit"** is kept
- The calculation itself is recorded in the accounts
- Goods/services internally invoiced are directly linked to the project concerned

„POOL”

Unit cost x number of units utilized on the project = eligible costs

**Horizon Europe - internal rates (???)
with overhead included (!)**

Other goods and services: Article 10

Subcontracting or Other service?

It's neither the EC, nor any of the Beneficiaries = a third party to the GA

- Any costs needed for the implementation of the action
- Consumables, material costs, dissemination costs, IPR protection fees, Certificate on Financial Statement, translations, proofreading, legal advice, publications costs, printing costs, meeting costs like catering and hotel costs, website design and development costs, etc.
- No need to foresee them one-by-one in the GA!

Article 10 Contracts to purchase goods, works or services	Article 13 Subcontracts
These contracts do not cover the implementation of action tasks, but they are necessary to implement action tasks by beneficiaries.	Subcontracts concern the implementation of action tasks; they imply the implementation of specific tasks which are part of the action and are described in Annex 1.
Do not have to be indicated in Annex 1.	Must be indicated in Annex 1.
The price for these contracts will be declared as 'other direct costs' — column D in Annex 2 — in the financial statement; they will be taken into account for the application of the flat-rate for indirect costs.	The price for the subcontracts will be declared as 'direct costs of subcontracting' — column B in Annex 2 — in the financial statement; they will not be taken into account for the application of the flat-rate for indirect costs.

Key word: Providing assistance to a non-complete task(s) of the action!

Chapter Three

Indirect Costs in H2020

Indirect Costs

FLAT-RATE overhead costs calculation applies

For all Beneficiaries: 25% on the top of the total direct eligible costs, excluding:

- Subcontracting
- Costs of in-kind contribution provided by third parties, that are not used on the beneficiary's premises
- Costs of providing financial support to third parties
- Lump-sums or unit costs includes indirect costs
- **Specific cost categories (including internally invoiced goods and services) in HE**

It's automatically added to the reported direct costs.

Chapter Four

Funding rates in H2020

Funding rates

One project – One Rate principle

- No distinction between the activities (e.g. research, management, other)
- 100% reimbursement for all in Research and Innovation Actions (RIA) and in Coordination and Support Actions (CSA)
- 70% reimbursement for profit making entities in Innovation Actions (IA) with the exception of:
 - 100% funding for non-profit entities in IA
- Special funding rates for some grants, like:
 - ERA-NET
 - MSCA – COFUND
- The funding rate is always applied on the reported and accepted eligible costs, taking into account the funding ceiling

Chapter Five

Mutual Insurance Mechanism

Replacing the Guarantee Fund in Horizon Europe
