Topic description
ExpectedOutcome: Proposals are expected to contribute to all of the following expected outcomes: <ul style="list-style-type: none"> Take stock, identify weaknesses, and advance our knowledge on contemporary China's social, cultural, political, and economic characteristics, on the impact of its foreign policy, and on its compliance with international obligations/laws/norms (or lack thereof). Scrutinize new global narratives and how these compare and interact with European interests and values and identify possible areas of mutually beneficial cooperation Incrementally develop and network independent European knowledge and expertise on Contemporary China in order to mainstream knowledge and enhance the European capacity to bring forward coherent and fact-based policy-making. This should be done by taking into account and building upon existing knowledge and relevant networks already being developed and/or strengthened at the level of Member States in order to increase knowledge sharing across Europe, create new synergies between knowledge nodes, and complement existing knowledge enhancing strategies. Submission and Evaluation of Proposals Assent Disclaimer

Please read and accept this disclaimer to proceed with the creation of your draft proposal:

Proposal pre-registration data

1. In order to plan the evaluations, the Commission services need access to a limited amount of information about your draft proposal (the so called pre-registration data) prior to call deadline. The pre-registration data is limited to: call, topic, type of action, Participant Identification (PIC) code of the participating organisation(s), project acronym, short summary and - where applicable - panel and keywords. **Neither the Part B nor any annexe(s) form part of the pre-registration data that can be accessed by the European Commission services before the call deadline.**
2. You do not have to list sensitive/confidential information in the 'Short Summary' (entered on Step 3). Where relevant, sensitive/confidential information can be added to the 'Abstract' field in the Part A administrative form at a later stage in the submission process; this Abstract is not included in the pre-registration data. Therefore, please provide as the 'short summary' the relevant information (keywords, non-confidential information) for the planning of the evaluation.

- I agree that the pre-registration data becomes available to the European Commission services prior to call closure.
- I wish that the pre-registration data does not become available to the European Commission services prior to call closure. (Applicants are advised to use this option only in well justified cases, as it hinders the planning of the evaluation process and the timely processing of proposals).

Part B

3. **File format:** For the Technical Annex (part B) you must use exclusively PDF ("portable document format", compatible with Adobe Acrobat version 5 or higher, with embedded fonts). Annexes might have an obligatory page limit. Please check for the number and type of mandatory or optional annexes for the call in the relevant call documentation. For annexes where page limits apply, excess pages will be automatically made invisible, and will not be taken into consideration by the experts. Users will receive a warning when trying to submit an annex with excess pages.
4. **Time constraints:** Preparation and uploading of the PDF formatted technical annex may take some time. You should ensure that this has been completed in time, well before the call closure deadline.

Submission

5. Proposals must be submitted prior to the call closure deadline. Likewise, modifications to proposals or uploaded attachments are also required to be submitted prior to the call closure deadline or they will not be taken into account. Proposals may be submitted or withdrawn at any time prior to the call closure deadline. There is only ever one version of a submitted proposal, as submission over-writes the previous version.

Personal Data

6. We will process personal data in accordance with Regulation (EU) 2018/1725 and according to the "notifications of the processing operations" to the Data Protection Officer (DPO) of the Commission/Agency (publicly accessible in the DPO register). Read more on the [Legal Notice of the Portal](#).

Introduction to Proposal Writing

What does a proposal look like?

*Always check the most **updated** standard proposal template for your call on the Portal!*

Horizon Europe Programme Standard Proposal Template (RIA, IA)

Application forms (Part A)
Project proposal – Technical description (Part B)

Version 1.0
10 March 2021

Part A

1. General information

- Abstract
- Declarations

2. Participants

- Administrative data
- Researchers involved in the proposal
- Role of participating organization in the project
- Up to 5 relevant publications, dataset, goods, etc.
- Up to 5 relevant projects or activities
- Description of any significant infrastructure
- Gender Equality Plan

3. Budget

4. Ethics and security issues

5. Other questions (if any)

Table of contents

Section	Title	Action
1	General information	
2	Participants	
3	Budget	
4	Ethics and security	
5	Other questions	

Part B

THREE KEY SECTIONS:

1. Excellence
2. Impact
3. Quality and Efficiency of the Implementation

THREE MORE (OPTIONAL) SECTIONS:

1. **Financial support to third parties**
2. **Clinical trials**
3. **Calls flagged as security sensitive**

Which section is the most important?

SCORED EQUALLY, unless...

1. Excellence
2. Impact
3. Implementation

*Horizon Europe - Work programme 2023-2024
General Annexes*

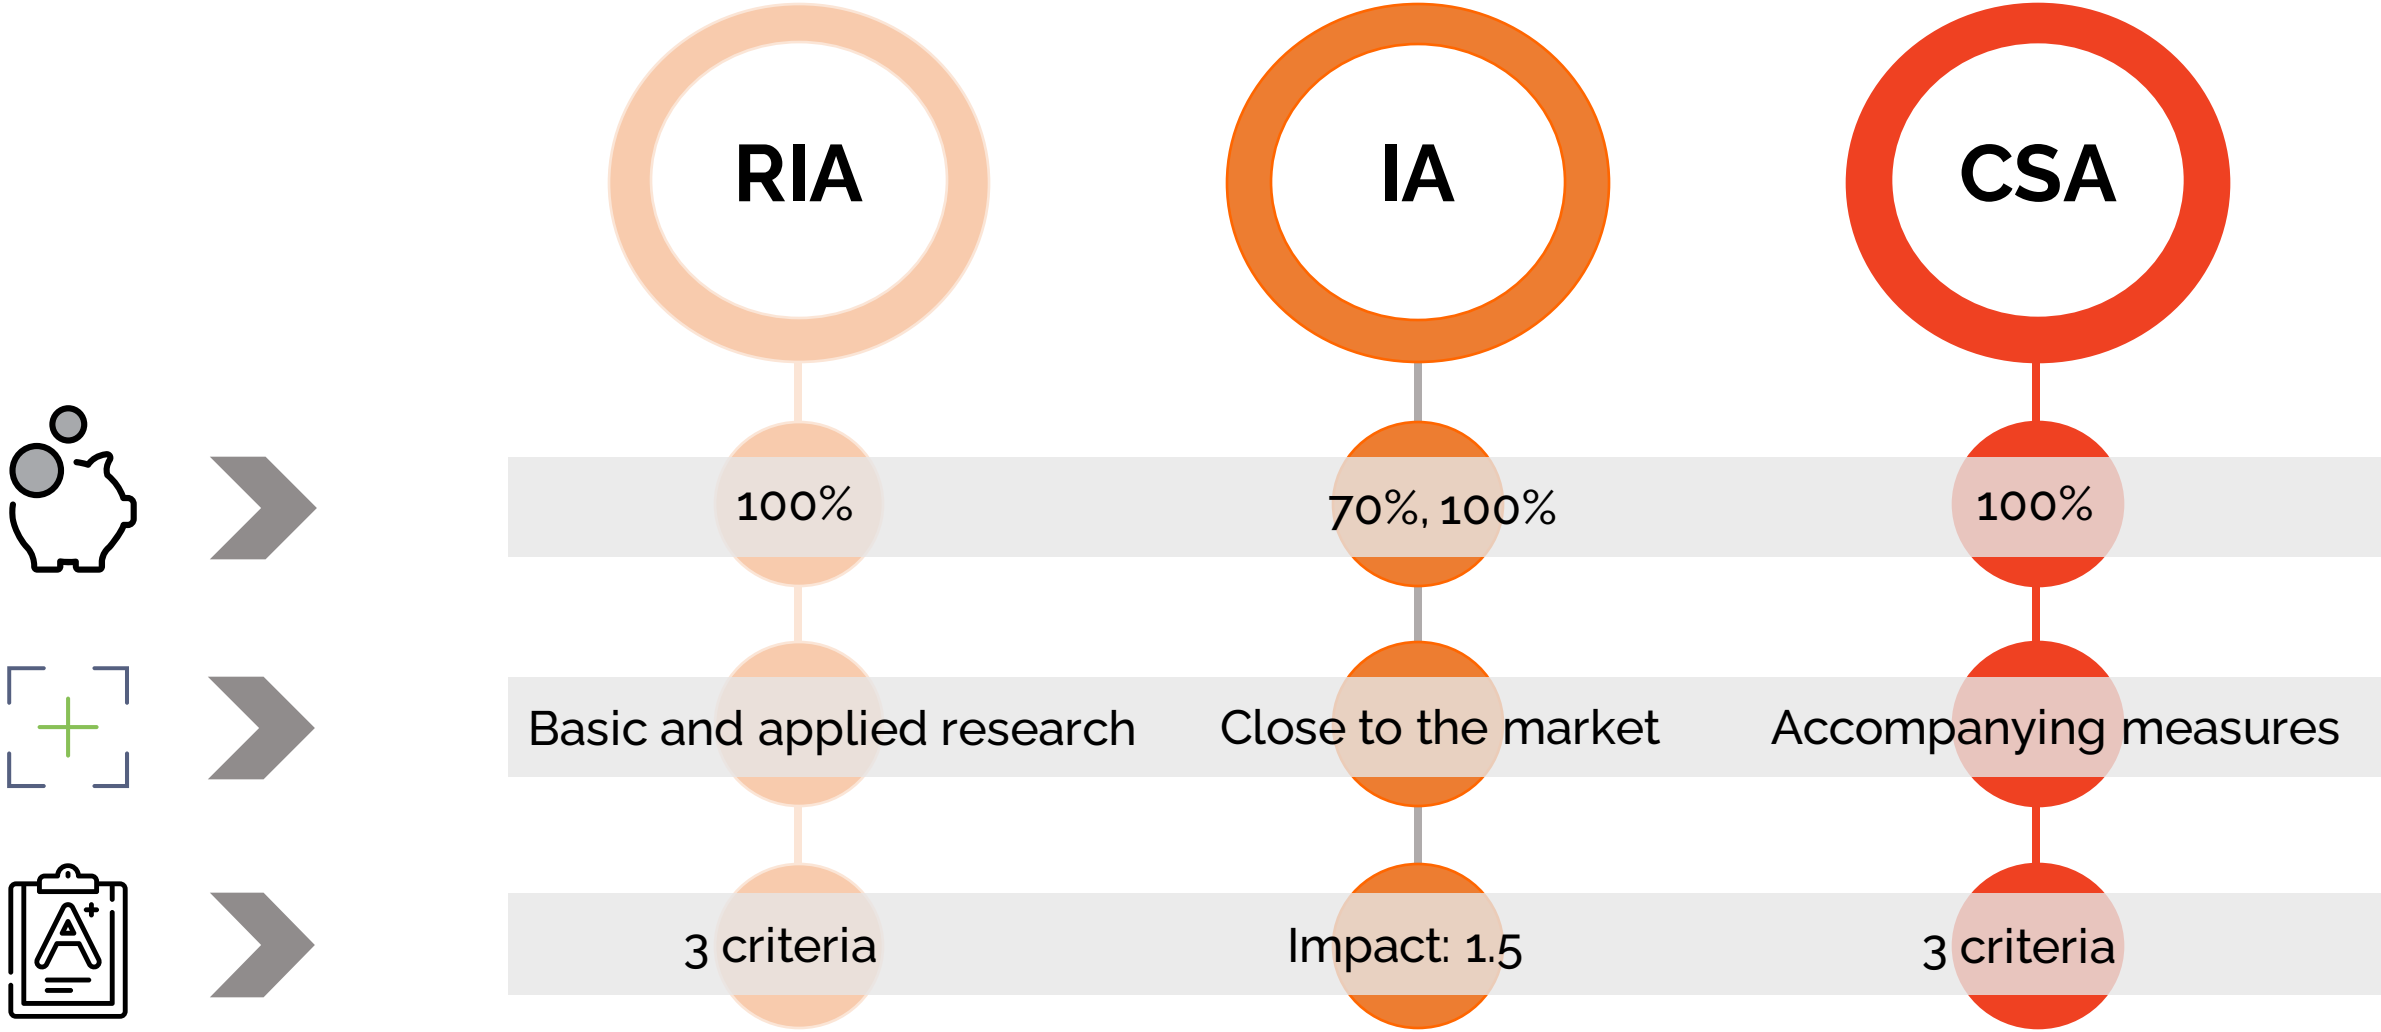

Scores and weighting

Evaluation scores will be awarded for the criteria, and not for the different aspects listed in the table. For full applications, each criterion will be scored out of 5. The threshold for individual criteria will be 3. The overall threshold, applying to the sum of the three individual scores, will be 10.

To determine the ranking for 'Innovation actions', the score for 'Impact' will be given a weight of 1.5.

Proposals that pass the individual threshold AND the overall threshold will be considered for funding, within the limits of the available call budget. Other proposals will be rejected.

Types of action

WORK PROGRAMMES, CALLS, TOPICS

*Horizon Europe - Work Programme 2023-2024
Climate, Energy and Mobility*

Table of contents

Introduction 15

**Destination – Climate sciences and responses for the transformation
towards climate neutrality 21**

Call - Climate sciences and responses 24

Conditions for the Call 24

Earth system science 25

HORIZON-CL5-2023-D1-01-01: Further climate knowledge through advanced science and technologies for analysing Earth observation and Earth system model data 25

HORIZON-CL5-2023-D1-01-02: Climate-related tipping points 27

HORIZON-CL5-2023-D1-01-03: Climate impacts of a hydrogen economy 30

HORIZON-CL5-2023-D1-01-04: Improved knowledge in cloud-aerosol interaction 32

Climate change mitigation, pathways to climate neutrality 35

HORIZON-CL5-2023-D1-01-05: Science for successful, high-integrity voluntary climate initiatives 35

Work programme topic

HORIZON-CL5-2024-D1-01-06: The role of climate change foresight for primary and secondary raw materials supply

Specific conditions	
<i>Expected EU contribution per project</i>	The Commission estimates that an EU contribution of around EUR 5.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<i>Indicative budget</i>	The total indicative budget for the topic is EUR 5.00 million.
<i>Type of Action</i>	Research and Innovation Actions
<i>Eligibility conditions</i>	<p>The conditions are described in General Annex B. The following exceptions apply:</p> <p>If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used).</p> <p>The Joint Research Centre (JRC) may participate as member of the consortium selected for funding.</p>

Expected Outcome: The successful proposal will support the transition to a digital and low carbon society in the context of the European Green Deal with a particular emphasis on climate change and raw material value chains. In particular, it should contribute to **all of the** following expected outcomes:

- Short-, medium-, and long-term scenarios of changes in the type, origin and quantity of raw materials (metals/minerals) required for the twin transition.
- Geo-referenced projections for the changes to the greenhouse gas and energy footprint associated with the supply of these primary and secondary raw materials with a view to facilitating their use in integrated assessment models.

Work programme topic text

Expected Outcome | Scope

- Background
- Objectives
- Activities
- Methods
- Outputs
- Disciplines
- Geographical coverage
- EU contribution, duration
- Policies, publications, etc.
- Cross-cutting issues

Expected Outcome: In support to the EU biodiversity strategy for 2030 the successful proposal should provide knowledge to support EU and its Member States as well as relevant Associated Countries in the implementation of its actions and commitments by contributing to the integration of biodiversity and natural capital into public and business decision-making at all levels for the protection and restoration of ecosystems and their services. Successful proposals will contribute to all of the following expected outcomes:

- Inform the policy decisions affecting the environment through a better understanding of the condition of ecosystems and their services in Europe, helping fill the current knowledge gaps.
- Contribute to the evidence and awareness of the importance of biodiversity, healthy ecosystems and the social and economic values that emerge from them through a better understanding of ecosystems services in relation with ecosystems condition.
- Support restoration targets and secure the sustainability of human activities and human well-being through the definition of the minimum criteria for ecosystems to achieve or maintain a healthy state or a good condition.

Scope: The first EU-wide Ecosystem Assessment report states that Europe's ecosystems, on which we depend for instance for food, timber, clean air, clean water, climate regulation and recreation, suffer from unrelenting pressures caused by intensive use of land or sea, climate change, pollution, overexploitation of natural resources and invasive alien species. Ensuring that ecosystems achieve or maintain a healthy state or a good condition is a key requirement to secure the sustainability of human activities and human well-being.

The successful proposal should cover the main knowledge gaps identified by the EU Ecosystem assessment⁴⁷ report to improve the assessment of the condition of ecosystems while providing uptake of the assessment's outcomes in policy. It should develop and test indicators not yet available for supporting the ecosystem and services assessment. This includes developing the minimum criteria, reference levels and aggregation schemes to define good ecosystem condition. This definition is not restricted to protected areas, but should encompass also forests, agroecosystems, urban areas, soil ecosystems, wetlands, fresh water and marine ecosystems. The proposal should address regional diversity and the corresponding decision level.

**Specific
Challenge**

Proposal Writing: the notions

a.

What you aim to achieve through your project activities, within your project duration

OBJECTIVES

b.

The progress your project is bringing to the specific field beyond the state of the art

AMBITION

c.

The sum of influences and effects your project has on its target groups and fields, after its end

IMPACT

d.

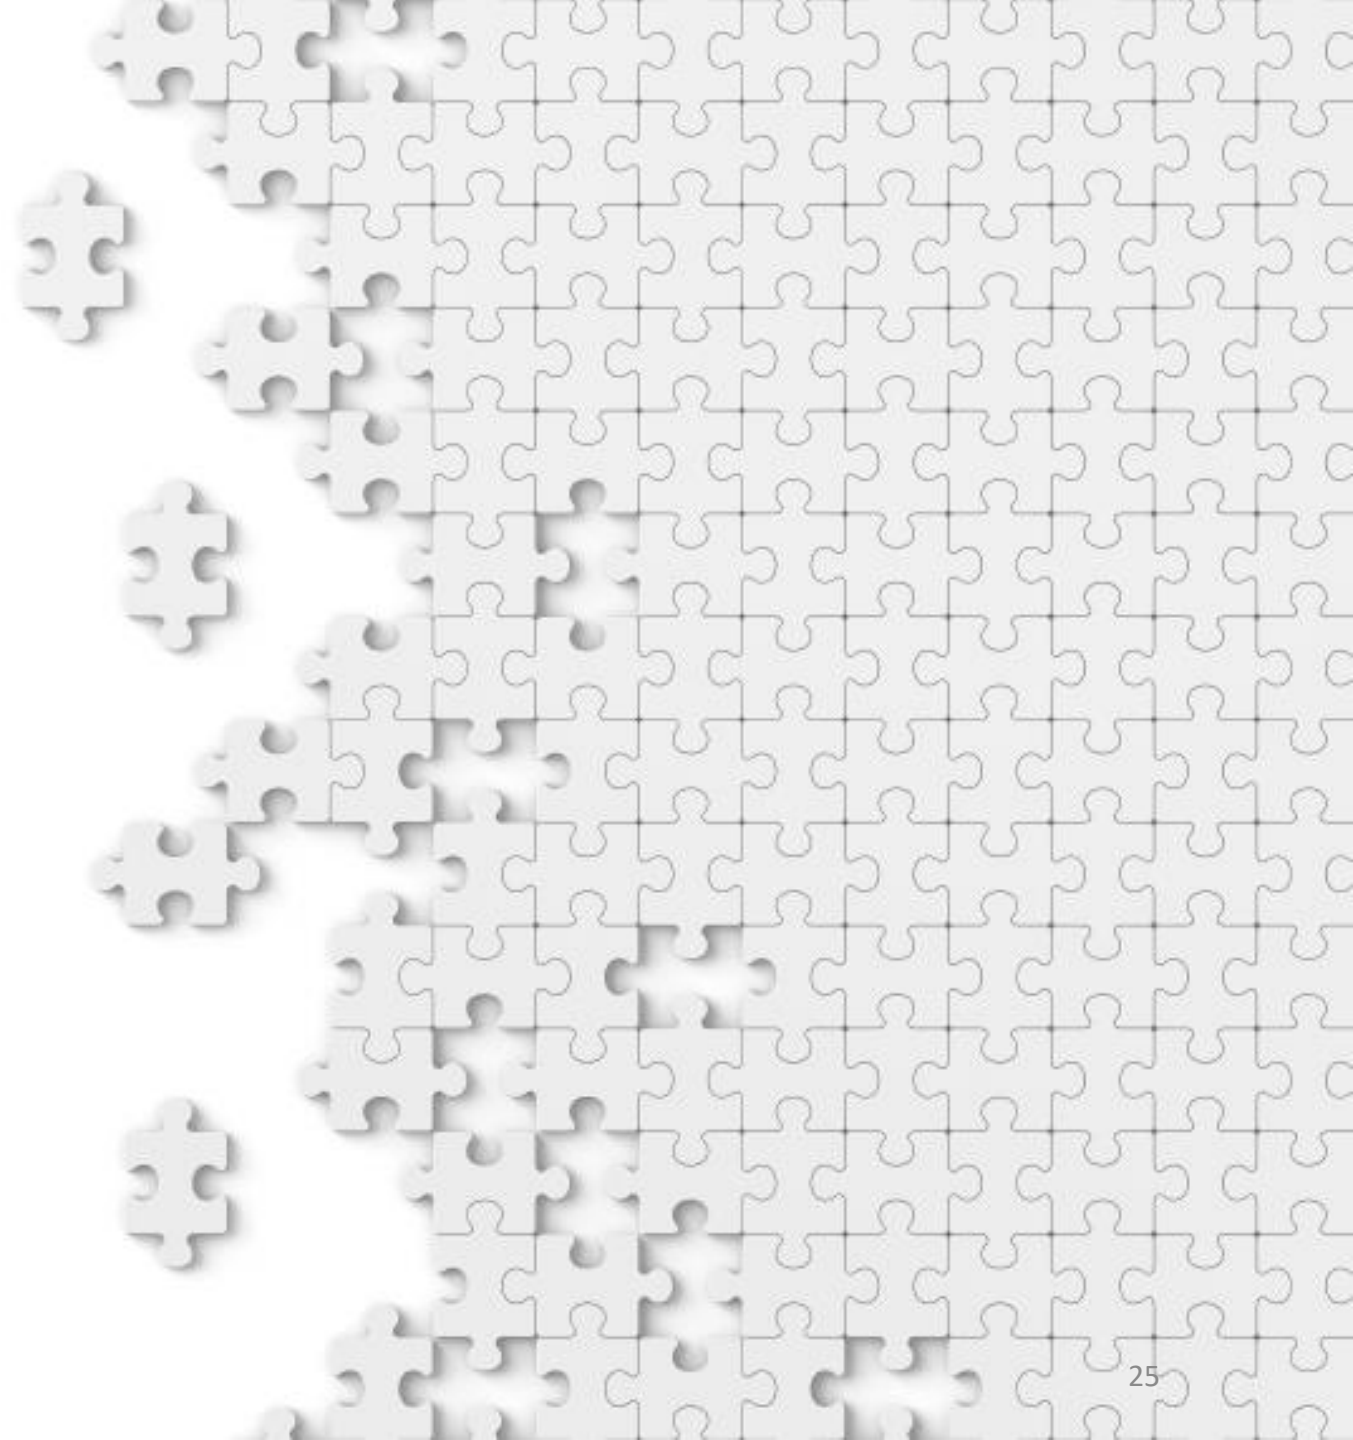

The tangible products your project is delivering within its duration

OUTPUTS

Proposal writing

Basic concepts

- Outcomes
- Work Packages
- Deliverables
- Milestones
- Gantt
- PERT
- Risks VS Barriers

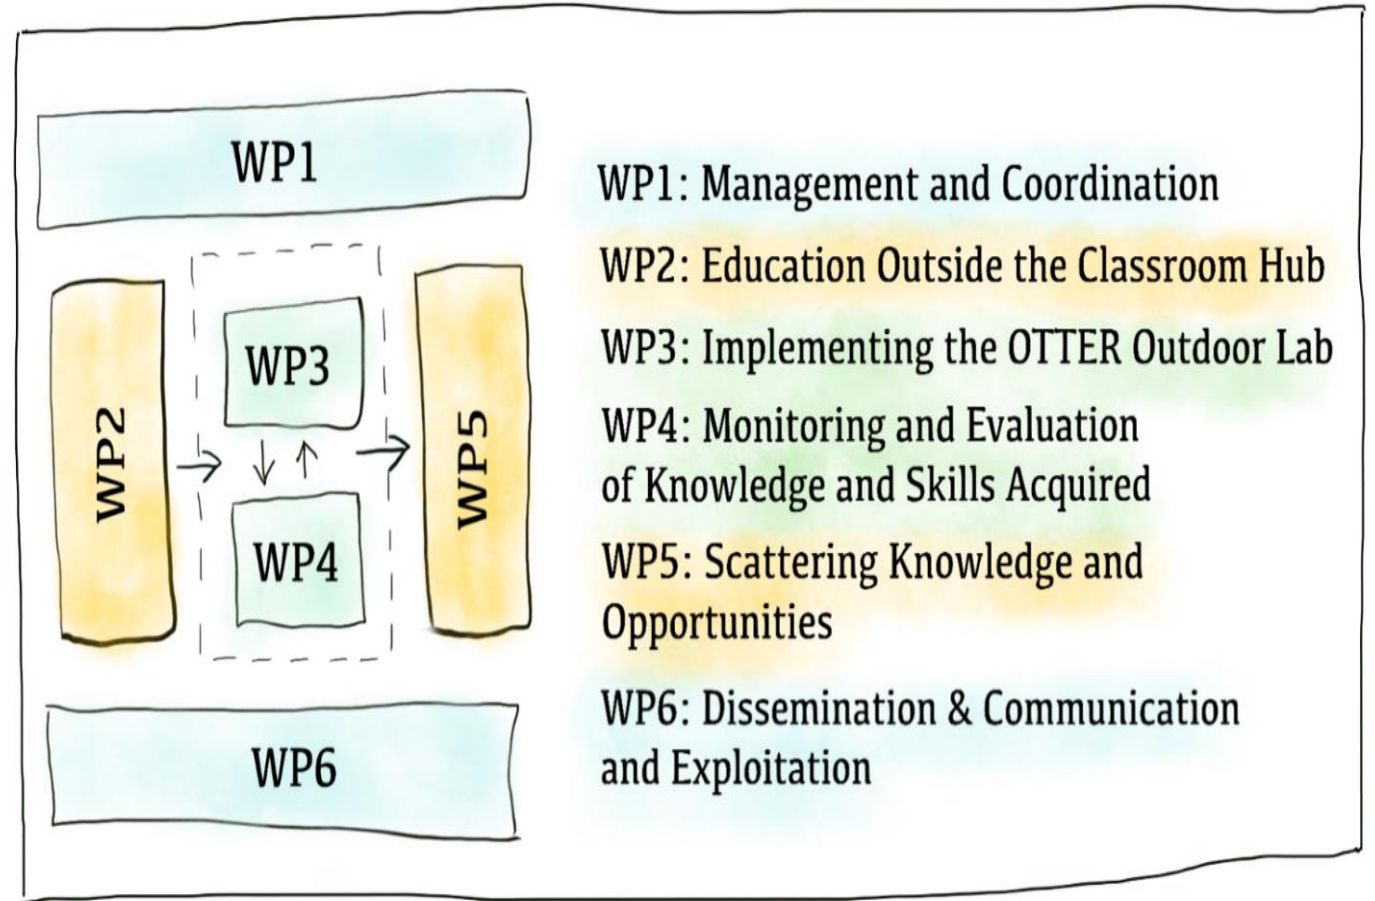

CASE STUDY

PERT and Gantt

- Both are **compulsory**
- PERT is the logical **correlation** between your work packages
- ..to be consistent with your **Gantt**, the project schedule
