TRAININGS

Call analysis in Horizon Europe in the AI era

20 January 2027
Webinar

AGENDA

08:45 – 09:00 **Accessing the ZOOM Online Meeting Room**

09:00 – 09:15 **Event opening and introduction to the course**

09:15 – 10:00 **Call analysis in Horizon Europe**

In this presentation, we will introduce the rationale and importance of Call Analysis, the expectations of the European Commission and the importance of being on the same page with your partners when it comes to understanding of the call (i.e. the work programme topic) text.

(10:00 – 10:15 Coffee Break)

10:15 – 11:00 **Individual Exercise – Call Analysis**

This will be a very hands-on session with a real example of a Horizon Europe work programme topic where participants will try to find and highlight the key elements in the text.

This is the exercise we often do with our partners before we start the proposal preparation as it helps everyone dive into the details and ultimately discuss and agree on them.

Individual call analysis exercise is the first step of the exercise and this knowledge will be transferable across different clusters and help you analyse your own topics.

(11:00 – 11:15 Coffee Break)

11:15 – 11:45 **Group solutions and discussion – Call Analysis**

After individual analysis, we will reconvene to go through the actual solutions. This session will help clarify how to identify objectives, methodologies, activities, outputs, target groups, stakeholders, cross-cutting priorities, among other things.

11:45 – 12:00 **Final Q&A and end of the webinar**
